Subject Index

α-Granule adhesive proteins, the origin and physiological relevance of (HARRISON *et al*), 125
Adenofibroma of the ovary, benign, complete remission of autoimmune thrombocytopenia after extirpation of (VON DEM BORNE *et al*), 119
Amyloidogenicity, human light chain, relevance of class, molecular weight and isoelectric point in predicting (BELLOTTI *et al*), 65
Anaemia, acquired idiopathic sideroblastic (AISA), two types of (GATTERMANN *et al*), 45
Anaemia and marrow blood flow in the rat (SCHOUTENS *et al*), 514

Anaemia, aplastic, does HLA-DR predict response to specific immunosuppressive therapy in? (RUGMAN *et al*), 545
Anaemia, aplastic, patients with, treated by allogeneic marrow transplantation, previous donor pregnancy as a risk factor for acute graft-versus-host disease in (FLOWERS *et al*), 492
Anaemia, post-hepatitic aplastic, in children in Taiwan, a hepatitis prevalent area (LIANG *et al*), 487
Anaemia, severed recessive poikilocytic, with a new spectrin α chain variant (LECOMTE *et al*), 497
Antibodies, antiphospholipid (HARRIS), 1
Antithrombin II and procoagulant activity: sex differences and effects of the menopause (MEADE *et al*), 77
Arachidonic acid metabolism in platelets stored for 5 days (CESAR & NAVARRO), 295
Autoimmune thrombocytopenic purpura, *in vitro* suppressor T lymphocyte dysfunction in, associated with a complement-fixing antibody (HYMES & KARPATKIN), 330
Azathioprine, re-evaluation of the role of, in the treatment of adult chronic idiopathic thrombocytopenic purpura: a report on 53 cases (QUIQUANDON *et al*), 223

Blood Banks, American Association of, 42nd Annual Meeting of (HEWITT & BARBARA), 552
B lymphoid malignancies, detection of immunoglobulin gene rearrangement in, by polymerase chain reaction gene amplification (DEANE & NORTON), 251
Bone marrow, human, *in vitro* priming with recombinant GM-CSF (KORTHOUT *et al*), 376
Bone marrow transplantation, allogeneic, for secondary leukaemia and myelodysplastic syndrome: a survey by the EBMTG (DE WITTE *et al*), 151
Bone marrow trephine biopsies as a source of nucleic acids for molecular diagnosis of haematological neoplasms (FEY *et al*), 229
Book reviews
Bone Marrow Diagnosis in Clinical Practice, 123
Cytokines in Cancer Therapy, 123
Haematology Revision for MCRP and MRCPath, 554
Hemophilia in the Child and Adult, 3rd edn, 238
Heparin: Clinical and Biological Properties, Clinical Applications, 238
Hereditary Hemolytic Anemias, 238
Laboratory Haematology—an account of laboratory techniques, 123
Manual of Pediatric Hematology and Oncology, 380
Platelet Disorders, 554
Red Cell Membranes: Structure, Function, Clinical Implications, 380

Castleman's disease: anti-erythropoietin antibodies in hyperviscosity syndrome associated with giant lymph node hyperplasia (STEINBERG *et al*), 543
CD9 monoclonal antibodies, platelet activation by, is mediated by the $F_{c\gamma}$ II receptor (WORTHINGTON *et al*), 216
CLL, the use of 'CHOP' in the treatment of (BENNETT *et al*), 546
Coagulation, activated, and/or fibrinolysis, a comparative evaluation of assays for markers of: thrombin—antithrombin complex, D-dimer and fibrinogen/fibrin fragment E antigen (BOISCLAIR *et al*), 471
Cyclosporin therapy, long-term may decrease the risk of chronic graft-versus-host disease (LÖNNQVIST *et al*), 547

Erythropoietin production in kidney tubular cells (MAXWELL *et al*), 535
Erythropoietin, serum, following cytostatic therapy (BOWEN *et al*), 372

Factor VIII subunit B deficiency, a familial (SAITO *et al*), 290
Folinic acid, expansion by, of the peripheral blood progenitor pool after chemotherapy: its use in autografting in acute leukaemia (LAPORTE *et al*), 445
Formate metabolism in the cobalamin-inactivated rat (DEACON *et al*), 354

Granulocyte dysfunction in patients with iron overload (EMAMI *et al*), 546
Granulocyte-macrophage colony stimulating factor, recombinant human, effect on progenitor cells in patients with advanced malignancies (VILLEVAL *et al*), 36
Grey platelet syndrome and idiopathic pulmonary fibrosis, simultaneous occurrence of: a role for abnormal megakaryocytes in the pathogenesis of pulmonary fibrosis? (FACON *et al*), 542

Haemochromatosis, prevalence amongst asymptomatic Australians (LEGGETT *et al*), 525
Haemoglobin $\alpha_2\beta_2$23Val→Ile produced in *Escherichia coli* facilitates Hb S polymerization (PAGNIER *et al*), 531
Haemoglobinuria, paroxysmal nocturnal, with coexisting deficiency of the ninth segment of complement: lack of massive haemolytic attack (YONEMURA *et al*), 108
Haemopoietic antigens on vascular endothelial cells: a detailed phenotypic analysis (FAVALORO *et al*), 385
Hairy Cell Leukemia, The Third International Workshop on, Laguna Niguel, California, 19–20 October 1989 (CATOVSKY *et al*), 378
Heat stroke, direct activation of platelets by heat is the possible trigger of the coagulopathy of (GADER *et al*), 86
Heparin binding to platelets, the effect of molecular weight on (HORNE *et al*), 306
Histiocytosis, spontaneous NBT reduction by monocytes as a marker of disease activity in children with (BURGIO *et al*), 146
Hypercoagulability during L-asparaginase treatment: the effect of antithrombin III supplementation *in vivo* (GUGLIOTTA *et al*), 465

IL-3, reactivation of HbF synthesis in normal adult erythroid bursts by (GABBIANELLI *et al*), 114
Interferon, alpha, therapy for haematological malignancies: correlation between *in vivo* induction of the 2′,5′oligoadenylate system and clinical response (DE MEL *et al*), 452
Interferon-alpha-induced morphological changes of megakaryocytes: a histomorphometric study on bone marrow biopsies in chronic myeloproliferative disorders with excessive thrombocytosis (CHOTT *et al*), 10
Interleukin-2 receptor, soluble, high levels of, in the serum of 30 patients with idiopathic hypereosinophilic syndrome (PRIN *et al*), 233
Interleukin 3 alone does not support the proliferation of bone marrow cells from A/J mice: a novel system for studying the synergistic activities of IL-3 (MORRIS *et al*), 131
Interleukin 3, the effects on cells responsive to macrophage colony-stimulating factor (CSF-1) in liquid murine bone marrow culture (BREEN *et al*), 138
Interleukin-4 suppresses the interleukin-3 dependent colony formation from normal human bone marrow cells (DE WOLF *et al*), 246
Interleukin-5, induction of eosinophilic colonies by, on acute myeloblastic leukaemic cells (MOTOJI *et al*), 169

Leucapheresis (HAMBLIN), 548
Leukaemia, acute 'bilineal-biphenotypic' (AKASHI *et al*), 402
Leukaemia, acute, in adults, long-term survival and late relapses in (BRINKER & CHRISTENSEN), 156
Leukaemia, acute myeloid, cardiac transplantation for doxorubicin-induced cardiomyopathy in (ALDOURI *et al*), 541
Leukaemia, acute myeloid, monoclonal antibodies against myeloperoxidase are valuable immunological reagents for the diagnosis of (VAN DER SCHOOT *et al*), 173
Leukaemia cells, chronic myelogenous, in blast crisis, expression of the multidrug transporter, P-glycoprotein, in (KUWAZURA *et al*), 24
Leukaemia, chronic myelogenous, complete remission duration and long-term survivors in: a theoretical approach to a clinical decision (FONDEVILA *et al*), 235
Leukaemia, chronic myeloid, adoptive transfer of hyperthyroidism and autoimmune thyroiditis following allogeneic bone marrow transplantation for (ALDOURI *et al*), 118
Leukaemia, chronic myeloid, the position of the M-BCR breakpoint does not predict the duration of chronic phase or survival in (JAUBERT *et al*), 30
Leukaemia, drug sensitivity assays in (VEERMAN & PIETERS), 381

Leukaemia, granular lymphocyte, agranulocytosis associated with (KANEKO *et al*), 121
Leukaemia, infant acute lymphoblastic, with t(11;19), 264
Leukaemia, Ph+ chronic myeloid, rearrangements of immunoglobulin and TCR genes in lymphoid blast crisis of (KERIM *et al*), 414
Leukaemias, mature CD4 positive T-cell, the distribution of CD45R, CD29 and CD45RO (UCHL1) antigens in (WORNER *et al*), 439
Leukotriene C_4 elevated white blood cell synthesis of, in chronic myelogenous leukaemia but not in polycythaemia vera (STENKE *et al*), 257
Liver disease, chronic, in haemophiliacs (TRIGER & PRESTON), 241
Lymphoma, drug sensitivity assays in (VEERMAN & PIETERS), 381
Lymphoma, follicular, a Burkitt conversion of, variant t(2;18) translocation in (AVENTIN *et al*), 367
Lymphomas, CD30-positive large cell ('Ki-1 lymphoma') are associated with a chromosomal translocation involving 5q35 (MASON *et al*), 161
Lymphomas, production of granulopoiesis-stimulating and -inhibiting activities by T cells associated with malignant cells in (PICCINNI *et al*), 432

Magnetic resonance imaging, non-invasive quantitation of liver iron-overload by (KALTWASSER *et al*), 360
Malaria infection, acute, the circulating platelet in (PAUL *et al*), 122
Megakaryocytes, interpheron-alpha-induced morphological changes of: a histomorphometric study on bone marrow biopsies in chronic myeloproliferative disorders with excessive thrombocytosis (CHOTT *et al*), 10
Megakaryocytopoiesis, human, negative regulation of, by human platelet factor 4 and beta thromboglobulin: comparative analysis in bone marrow cultures from normal individuals and patients with essential thrombocythaemia and immune thrombocytopenic purpura (HAN *et al*), 395
MGUS or 'solitary' plasmacytoma, light chain restriction analysis of bone marrow plasma cells in patients with: diagnostic value and correlation with clinical course (BEZWODA *et al*), 420
Mononucleosis, infectious, increased CD5+ B cells in patients with (HASSAN *et al*), 375
Mouse cells, embryonic, failure to engraft in immunocompetent allogeneic recipients (BRENT *et al*), 549
Myelodysplastic syndrome and myelofibrosis, a case of (VERHOEF *et al*), 373
Myelodysplastic syndrome-associated inhibitory activity on haemopoietic progenitor cells (OHMORI *et al*), 179
Myelodysplastic syndromes, diagnostic and prognostic use in: monoclonal antibody ratios in malignant myeloid diseases (KRISTENSEN & HOKLAND), 270
Myeloma, human multiple, the role of interleukin-1 and tumour necrosis factor-α in (CARTER *et al*), 424
Myeloma, multiple, an identical translocation t(1;20)(q12.3;p13) in two patients with (WEH *et al*), 365
Myeloma, multiple, initial treatment in: no advantage of multidrug chemotherapy over melphalan–prednisone (HJORTH *et al*), 185

Neurosurgical procedures, development of anti-bovine thrombin antibodies following (DIEZ-MARTIN *et al*), 369
Neutrophil secondary granules, secretion of, occurs during granulocyte-macrophage colony stimulating factor induced margination (DEVEREUX *et al*), 17

Ophelia syndrome, another case of: Hodgkin's disease and memory loss (PFLIEGLER *et al*), 232

$P1^{A1}$ platelet antigen, alloimmunization to: results of a prospective study (BLANCHETTE *et al*), 209
Plasma cell line, a new human, Karpas 620, with translocations involving chromosomes 1, 11 and 14 (NACHEVA *et al*), 70
Plasmodium falciparum in microcytic erythrocytes in iron deficiency and thalassaemia, unrestricted growth of (LUZZI *et al*), 519
Platelet aggregating IgG antibody to platelet surface glycoproteins associated with thrombosis and thrombocytopenia (PFUELLER *et al*), 336
Pneumonitis, interstitial, after total body irradiation: effect of partial lung shielding (WESHLER *et al*), 61
PNH neutrophils and monocytes, deficiency of glycosyl-phosphatidylinisotol anchored proteins on: heterogeneous deficiency of decay-accelerating factor (DAF) and CD16 on PNH neutrophils (KAWAKAMI *et al*), 508
Prostaglandin E1, use for prevention of liver veno-occlusive disease in leukaemic patients treated by allogeneic bone marrow transplantation (GLUCKMAN *et al*), 277
Purpura, refractory idiopathic thrombocytopenic, ascorbate for the treatment of (VERHOEF *et al*), 234
P47 phosphoprotein of blood platelets (pleckstrin) is a major target for phorbol ester-induced protein phosphorylation in intact platelets, granulocytes, lymphocytes, monocytes and cultured leukaemic cells: absence of P47 in non-haematopoietic cells (GAILANI *et al*), 192

Ras activation in myelodysplastic syndromes: clinical and molecular study of the chronic phase of the disease (MELANI *et al*), 408
Receptor–ligand complexes are cleared to the open canalicular system of surface-activated platelets (LEISTIKOW *et al*), 93
Ristocetin, increased platelet sensitivity to, is predicted by the binding characteristics of a GPIb/IX determinant (MILLER *et al*), 313

Schwachman-Diamond syndrome, successful cyclosporin A treatment of aplastic anaemia in (BARRIOS & KIRKPATRICK), 540
Spherocytosis, hereditary, a genetic defect of erythrocyte band 4.2 protein associated with (IDEGUCHI *et al*), 347

Thalassaemia, β-, in the Japanese, molecular heterogeneity of: identification of two novel mutations (FUCHAROEN *et al*), 101
Thalassaemia, β-, in 174 Greek patients with thalassaemia major, molecular characterization of (KATTAMIS *et al*), 342
Thalassaemia, silent β, in the Italian population, the C–T substitution in the distal CACCC box of the β-globin gene promoter is a common cause of (RISTALDI *et al*), 480
Thrombocytopenia, genetic, with autosomal dominant transmission: a review of 54 cases (NAJEAN *et al*), 203
Thrombocytopenia, giant platelets, and a platelet membrane glycoprotein Ib with reduced amount of sialic acids (AAKHUS *et al*), 320
Transplantation with marrow grafts depleted of lymphocytes by counterflow centrifugation, favourable outcome of patients older than 40 years of age after (BÄR *et al*), 53

Uraemia, elevated platelet-free calcium in (MOOSA *et al*), 300

Vasculitis, cutaneous, in patients with myelodysplasia (GREEN *et al*), 364
von Willebrand factor, calpain proteolysis of, enhances its binding to platelet membrane glycoprotein IIb/IIIa: an explanation for platecoagulation factors in patients with stable control and monitored compliance (KUMAR *et al*), 82

X-chromosome proble, M27β, a highly informative, can be used for the determination of tumour clonality (ABRAHAMSON *et al*), 371
let aggregation in thrombotic thrombocytopenic purpura (MOORE *et al*), 457
von Willebrand factor gene and pseudogene, characterization of polymorphic markers in (BERNARDI *et al*), 282

Warfarin, effect on plasma concentrations of vitamin K dependent
